# Birth rate versus death rate (per thousand individuals) around the world in 2020.

These data are made available in the R package HellCor.
Countries are color−/shape−coded by their continent.

fastMI (p−value) = 0.333 ($< 2 \times 10^{-4}$)

JMI (p−value) = 0.451 ($< 2 \times 10^{-4}$)

Pearson's r (p−value) = −0.125 (0.97)

Births/1000 population

Deaths/1000 population
